LEADERSHIP

Stephen C. Barton

President and CEO

AT A GLANCE

EXPERIENCE
35+ years in geotechnical and concrete repair

PREVIOUS ROLE
President, Prime Resins

FIELD SUPPORT
Site support in dozens of countries

EDUCATION
B.S., Business Administration, Auburn University

Stephen C. Barton is a respected leader in both the geotechnical and concrete repair industries, with over 35 years of experience and a consistent track record of success. Before founding Alchatek, Barton served as the President of Prime Resins, where he honed his skills and developed a deep understanding of the industry.

Barton's journey in the concrete repair world began in his teens when he ran leak seal crews, and by his twenties, he was already developing polyurethane technology. His hands-on approach and intimate knowledge of the systems he supplies have earned him a reputation as a trusted expert and problem-solver.

As the CEO of Alchatek, Barton has guided the company's growth as an international manufacturer and supplier of chemical grouts and construction products for geotechnical, leak seal, and seawall repair applications. The company's products and technical expertise have earned a loyal customer base among contractors and engineers.

Barton's influence extends beyond the walls of Alchatek. His expertise has led him to provide critical site support in dozens of countries, fostering an extensive international network of customers, design professionals, and peers. His ability to build lasting relationships has been a key driver of his success.

A graduate of Auburn University with a Bachelor of Science in Business Administration, Barton's entrepreneurial spirit is evident in his successful stint as a home builder and land developer, which has sharpened his business acumen and strengthened his ability to navigate complex challenges.

Through his leadership and commitment to excellence, Stephen C. Barton has made a significant impact on the concrete repair industry. His vision continues to drive the industry forward.

ABOUT ALCHATEK

Alchatek delivers advanced chemical grout and repair systems for infrastructure repair and construction. We support contractors, engineers, and public works teams with proven products, technical education, and field-documented results. Our authority comes from consistently solving difficult problems correctly. Alchatek is headquartered in Tucker, Georgia, with manufacturing in Reno, Nevada.
