LEADERSHIP

Eric Collins

Director of Operations

AT A GLANCE

CURRENT ROLE
Director of Operations

PREVIOUS ROLE
Technical Director, Alchatek

OVERSEES
Production, supply chain, warehousing, maintenance, and facilities

QUALITY SYSTEM
ISO 9001 quality management system

Eric Collins brings technical depth and a practical approach to his role as Director of Operations at Alchatek. He leads the teams and systems behind the company's manufacturing operations, connecting product knowledge with disciplined execution to support contractors who depend on Alchatek's chemical grouts and polyurethane technologies.

Before becoming Director of Operations, Collins served as Alchatek's Technical Director, with responsibilities spanning safety, quality, and process development. His work in product testing, technical documentation, and manufacturing processes gives him a detailed understanding of how laboratory performance translates into consistent production and dependable products.

Today, Collins oversees production, supply chain, warehousing, maintenance, and facilities, while continuing to guide quality and continuous improvement. His priorities include advancing manufacturing automation, strengthening inventory traceability, and developing the training and standard work that help employees perform at their best. He works closely with teams across the business to identify bottlenecks and turn operational challenges into practical improvements.

Quality and safety are central to his approach. Through Alchatek's ISO 9001 quality management system, Collins supports product verification, corrective action, and clear operating standards. He emphasizes finding the cause of a problem and building the controls needed to prevent it from recurring.

Collins approaches leadership with a willingness to work through the details alongside his team. His focus is on building a safer, more capable operation that supports Alchatek's growth and earns customer confidence through consistent quality and reliable service.

ABOUT ALCHATEK

Alchatek delivers advanced chemical grout and repair systems for infrastructure repair and construction. We support contractors, engineers, and public works teams with proven products, technical education, and field-documented results. Our authority comes from consistently solving difficult problems correctly. Alchatek is headquartered in Tucker, Georgia, with manufacturing in Reno, Nevada.
